

DO YOU HAVE THE RIGHT FINANCE PARTNER FOR YOUR TRUCK?

Having the right finance partner for your truck matters. One that understands your business and is with you in both the good and challenging times. Here are five reasons why Volvo Financial Services is the ideal partner for your truck purchase.

1 FAST AND EASY TO WORK WITH

Volvo Financial Services has been the financial services provider for the Volvo Group for over 20 years. We are easy to do business with, you know us from your local dealer and when you need help, we operate fast.

2 ONE SIZE DOESN'T FIT ALL

Just like every one of us is unique, your business is too. At Volvo Financial Services, we get that. Want us to adapt your payments to suit your cash flow? No problem. Want to make a bigger down payment so your monthly bills are smaller? You got it. By getting to know you and understand your business and where it's headed, we can offer you the best tailored solution. One that meets your needs today, and is flexible enough to carry you confidently into the future.

3 YOUR EVERYTHING-YOU-NEED PARTNER

Whether you want one truck or a whole fleet, new or used, Volvo Financial Services can make it happen. And not just in terms of the vehicle – we can also provide all the parts and service agreements to keep them working for you and your customers, as well as provide the insurance to protect you. All these benefits are available through your local Volvo Trucks dealer.

4 WITH YOU EVERY STEP OF THE WAY

Wouldn't it be nice if business was always good? Unfortunately, business cycles go up and down, and there may be other obstacles to running your business. We understand and are by your side in challenging times as well as good times. When things do happen, you need support and flexibility from your partner – and that's what you can expect from us.

5 A SECOND FINANCING SOURCE

Your bank credit line is best used to act as a cash flow buffer to your daily activities – not for buying trucks and support services. That's why having a second line of credit from Volvo Financial Services is a much better way to finance your truck purchase.
